Dive into Every System

Unleash the power of TopScan Moto with full-system diagnostics.

Covering engine, ABS, smart key, entertainment systems and more, it ensures a thorough analysis for overhauling 20 internal systems.

Comprehensive approach ensures accurate troubleshooting.

Rider's All-Access Pass

Whether you're a dirt rider, cruiser, supermoto rider, or an adventure rider, TopScan Moto's got your back.

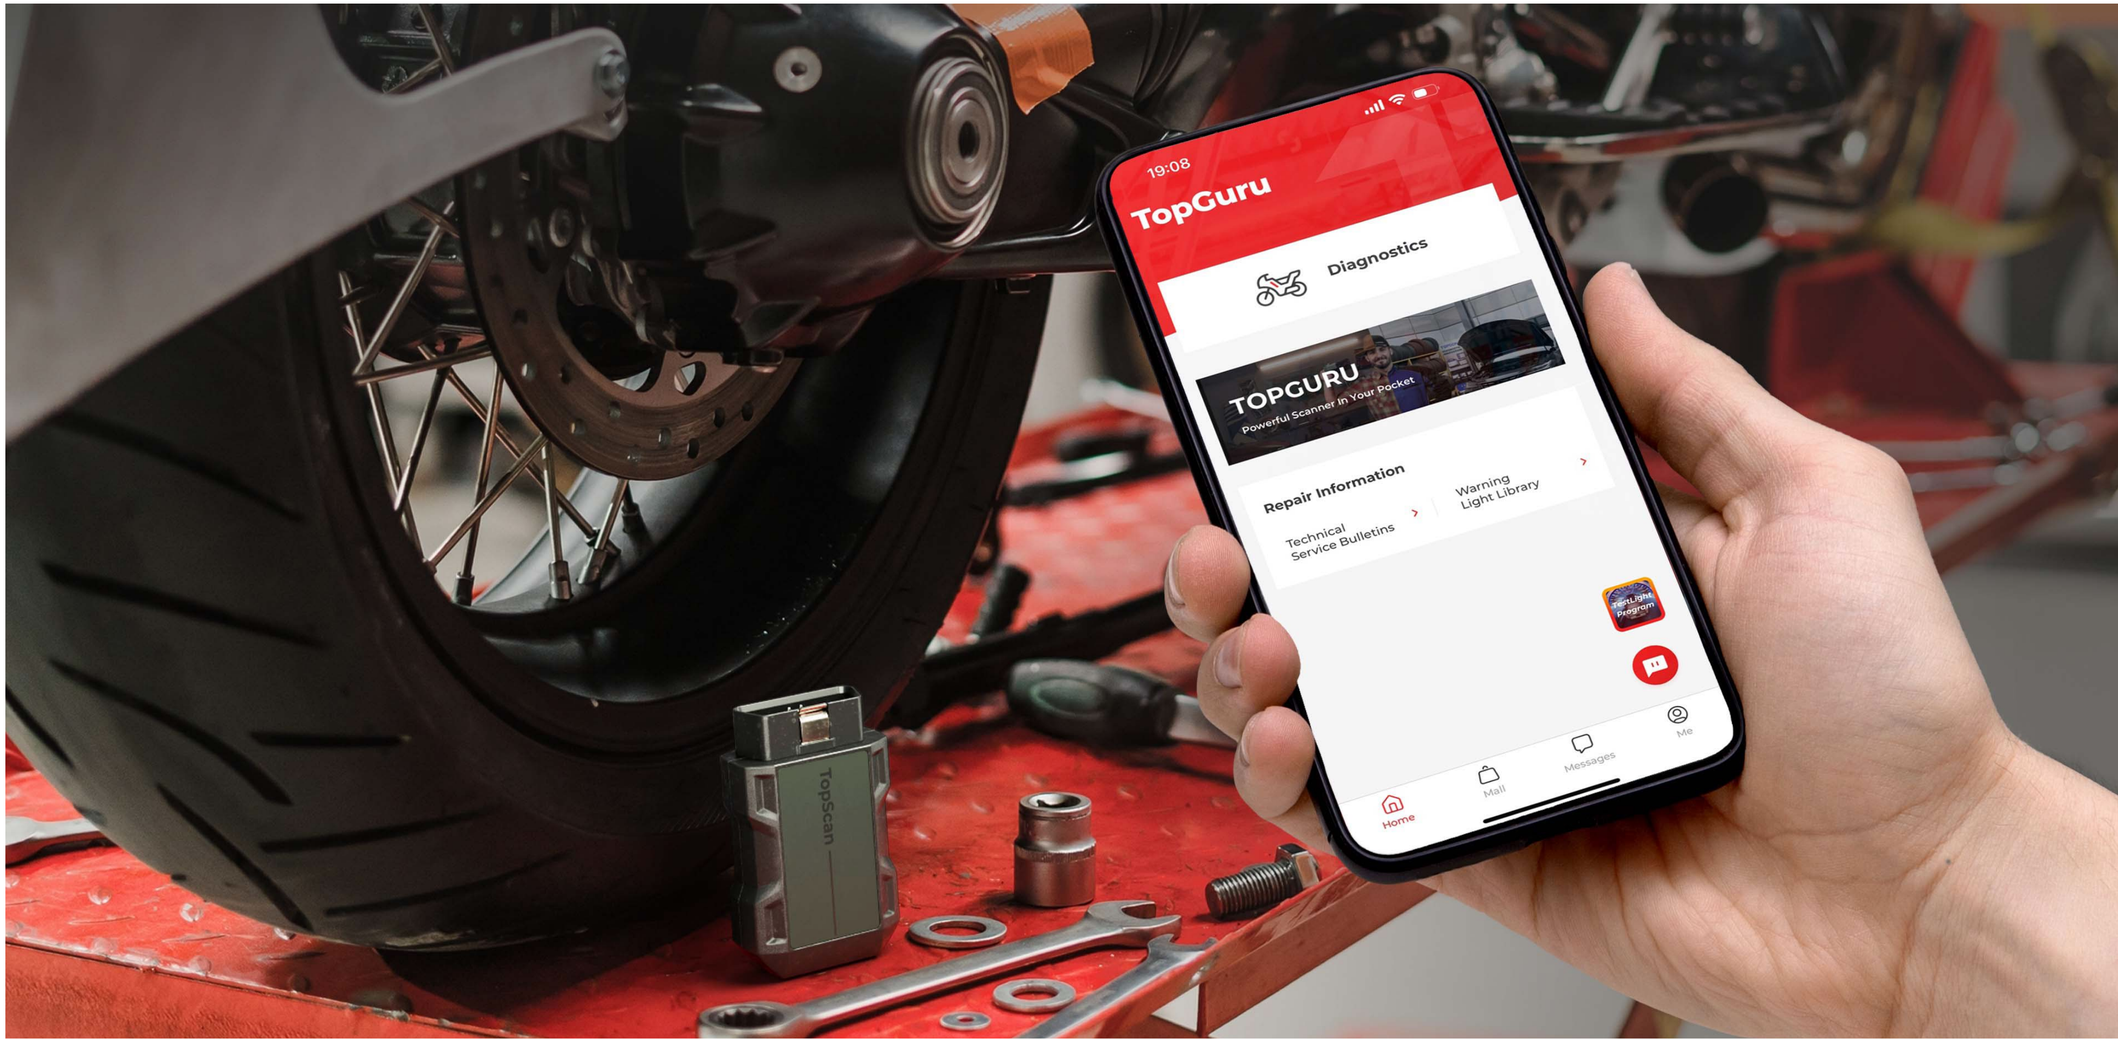
TopScan Moto supports various motorcycle models, including Ducati, Harley, and BMW, and its compatibility expands as updates release.

Take Care of Your Bike

TopScan Moto provides DIY enthusiasts with capabilities beyond standard diagnostics.

Dive into maintenance functions, including oil maintenance resets, service indicator adjustments, and idle speed tweaks.

NOTE: Available maintenance functions vary by motorcycle make.



Locate Problems With Ease & Speed

TopScan Moto's Active Test feature streamlines the troubleshooting process by efficiently distinguishing between software and hardware issues.

Whether it's assessing the ABS system or other crucial components, this capability helps you pinpoint problems for quicker and more accurate diagnostics.

NOTE: Available Active Test function varies by motorcycle make.

Ready to Go Anywhere at Anytime

Designed for on-the-go usage, TopScan Moto's compact dimensions and Bluetooth 5.0 compatibility offer seamless wireless diagnostics, so you don't have to worry about tangled wires or limited mobility.

Carry it with you and address issues anywhere, anytime.

Save Time, Ride More

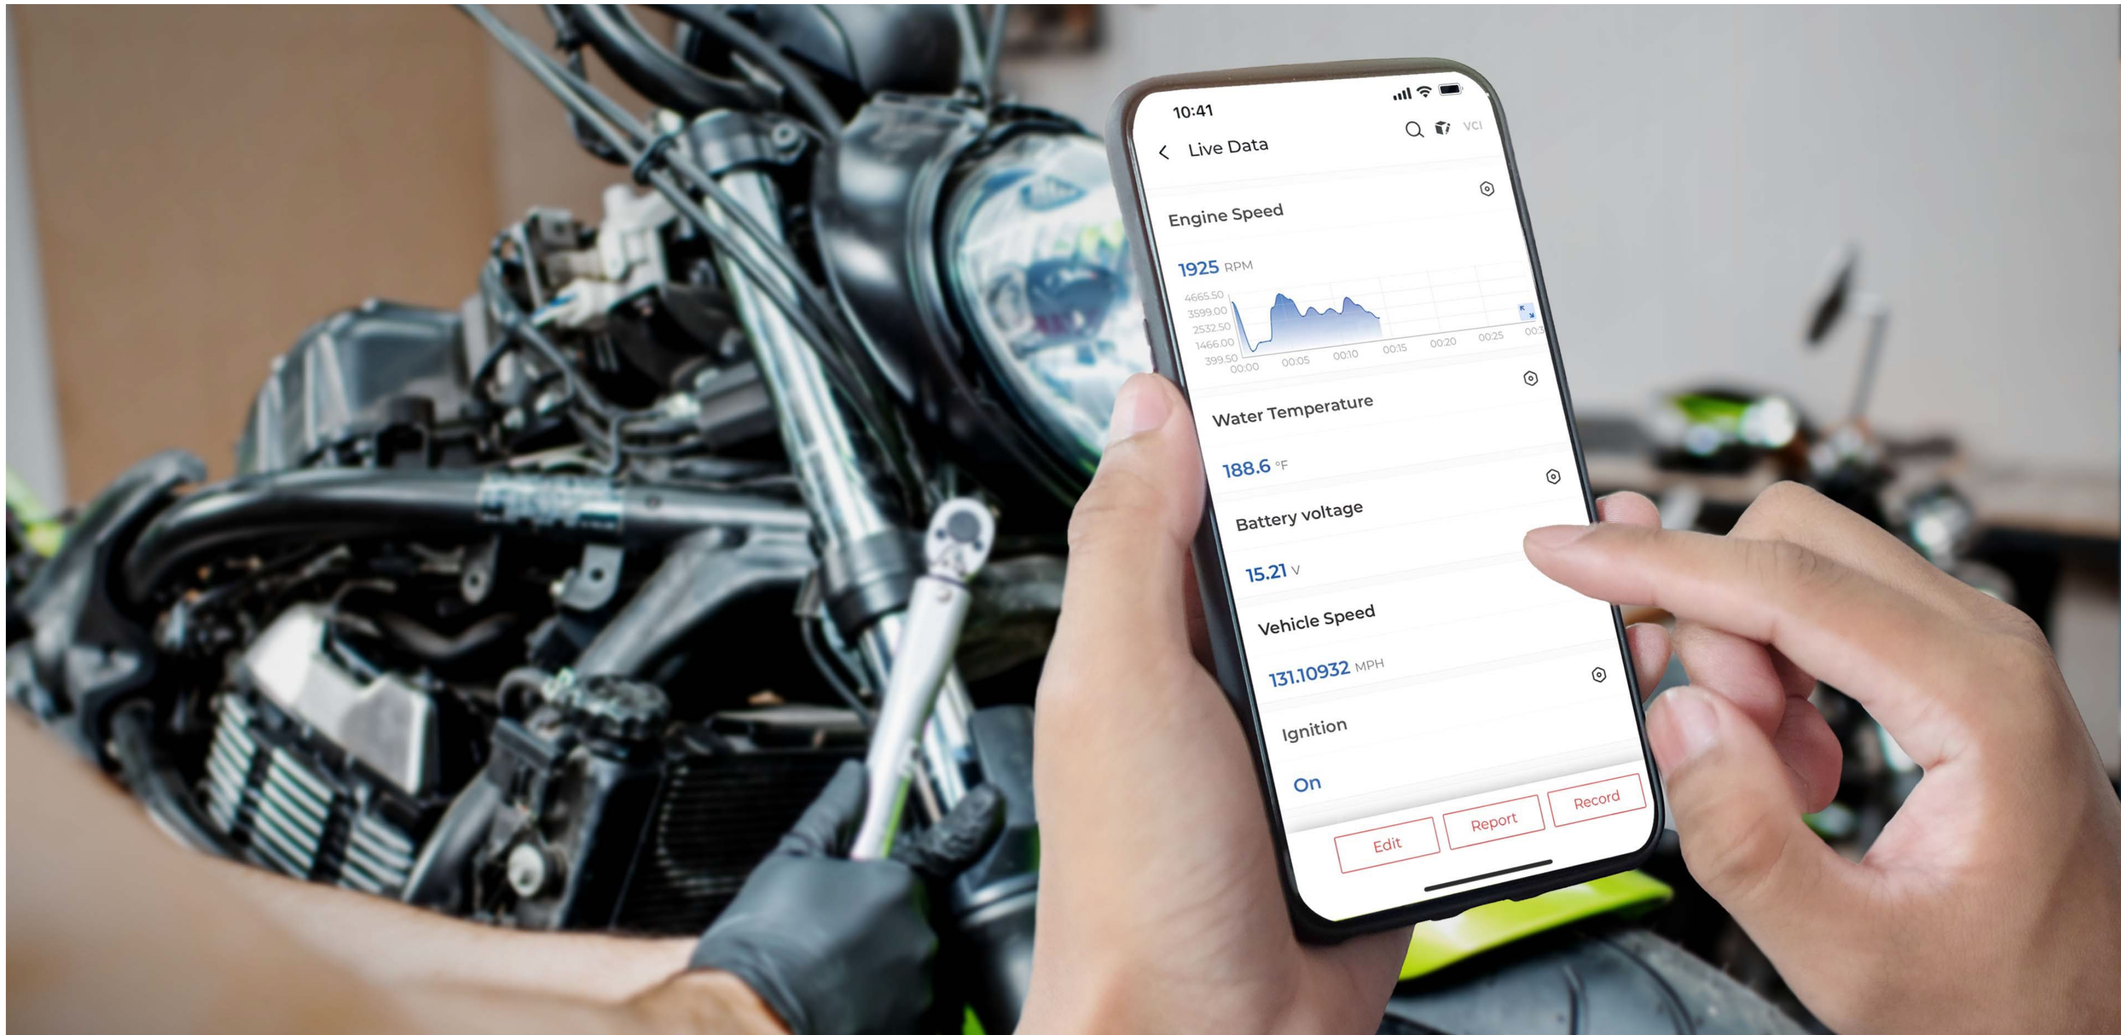
Swiftly detect and clear fault codes across all systems with a single click.

TopScan Moto simplifies the diagnostic process, making it accessible for users of all skill levels and enhancing overall user experience.

Intuitive and User-Friendly

Navigate effortlessly with an intuitive interface, presenting data in text, graph, or dashboard-like charts.

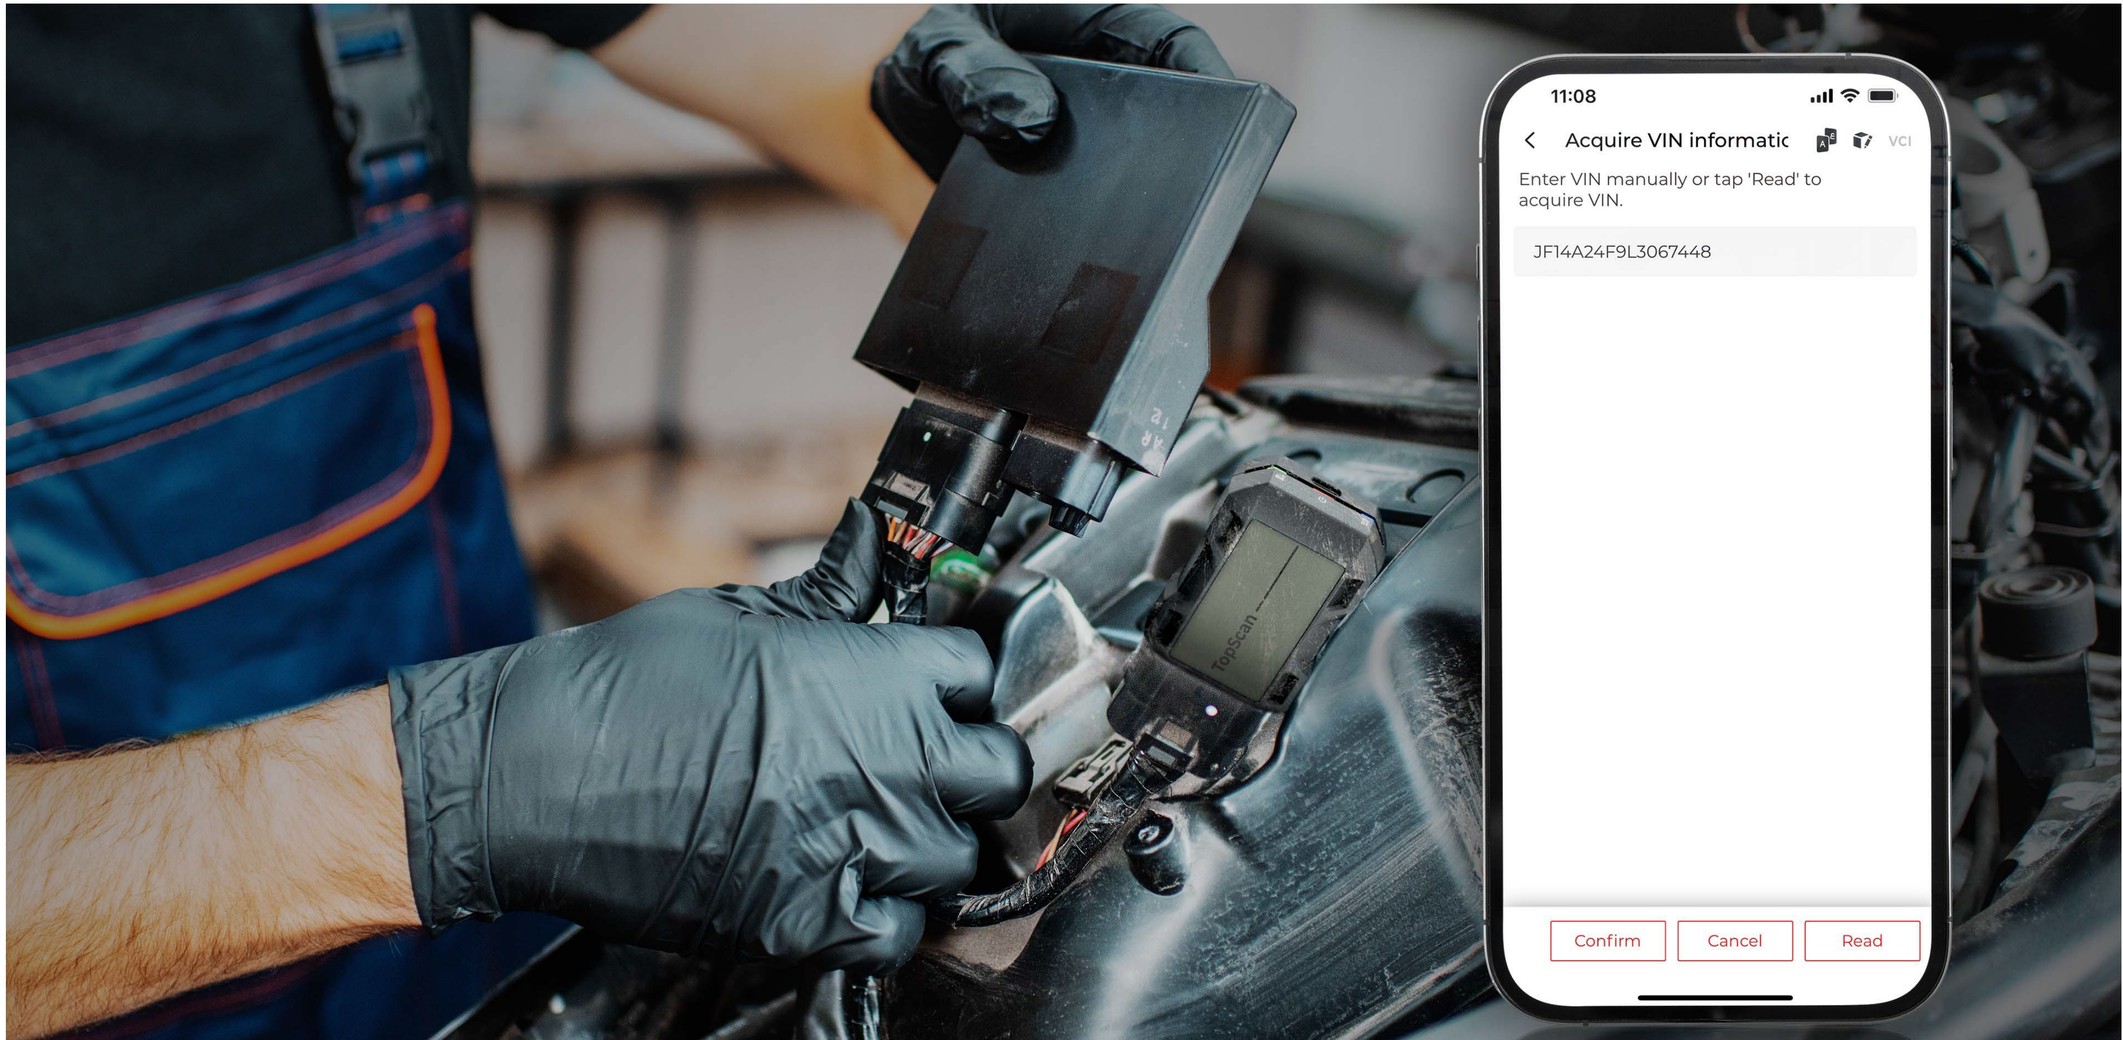
Multi-dimensional data display aids in understanding vehicle performance over time and pinpointing potential problems swiftly.



Intelligent Diagnosis with Auto VIN

Experience hassle-free identification with Auto VIN, which automatically recognizes your motorcycle's make and model.

Say goodbye to manual input, saving time and reducing errors.



Stay up-to-date

Topdon's strong R & D team is consistently adding more models and functions so you can unlock more possibilities with each update.

Updates may introduce new features and optimizations to improve functionality and reliability.

We Care About Your Voice

The feedback function allows user contributions to flow directly to TOPDON, enhancing ongoing improvements with real user data.

Functions

Full-system Diagnostics for Most Models

One-click Scanning and Clearing

Active Test for Faster Troubleshooting

Special Maintenance Functions

Automatic Motorcycle Identification

Bluetooth 5.0 Wireless Diagnostics

Easy-to-read Graphic Data

Fault Code Diagnostics Report

How to activate the software

Step 1:
Plug the TopScan Moto into the DLC (Data Link Connector) of your motorcycle.

Note: If the DLC of your motorcycle is not an OBD-II port, additional adapters* are required (not included) to connect the TopScan Moto to your motorcycle.

Step 2:
Start vehicle engine.

Step 3:
Make sure the LED light on the device is solid red and search for Bluetooth. Once connected, the LED light on the device will turn solid blue.

*Please visit our official website to find the corresponding adapters according to your bike's make and model.

FAQs

Question

What should I do if a communication error occurs?

Answer

Follow the steps below to identify the problem:

1) Check if the ignition is ON.

2) Check if the TopScan Moto is securely plugged into the motorcycle's OBD-II port.

3) Turn the ignition off. Wait 10 seconds before turning it back on and continue the operation.

4) Check if the vehicle's control module is defective.

FAQs

Question

Why do I need to download the diagnostic software after installing the TopScan app?

Answer

Since there are various vehicle manufacturers, different diagnostic software is required for different brands.

Question

Do I need to update the firmware before using it for the first time?

Answer

Yes. Firmware will automatically update to the latest version once the TopScan is connected with your phone via Bluetooth. You can also tap Me > Firmware Update to update the firmware manually.

FAQs

Question

Can multiple devices be bound to one TopScan app account?

Answer

Yes.
