

T-NINJA BOX PRODUCT PROFILE

TOPDON®

T-NINJA BOX

The T-Ninja Box is TOPDON's newest programming tool for car keys & the immobilizer system. This powerful tool allows users to read and write key chip data, generate special keys, and more!

SPECS

Storage Temperature	-20°C -70°C 68°F-158°F
Working Temperature	0°C-50°C 32°F-122°F
Input Voltage	DC12V
Input Current	500mA
Product Dimension	216×117×41mm (8.5×4.6×1.6")
Net Weight	0.55kg (2.2 lb)

FUNCTIONS

TOPDON[®]

- Car Immobilizer Programming
- Key Programming
- EEPROM, MCU, and ECU Programming

YOUR CHOICE FOR COMPATIBILITY & COVERAGE

TOPDON®

With the T-Ninja Box, you get the most Comprehensive Vehicle Models Database of US, Euro, and Asian brands, such as Volkswagen, Audi, Skoda, SEAT, BMW, Mercedes-Benz, Toyota, and others. This cutting-edge programming tool is compatible with the most prominent ECU, MCU, and EEPROM Manufacturers. Its coverage includes Atmel, ST, MicroChip, Renesas R32C, NEC, and much more.

CONSTINUOUS UPGRADES & TIMELY SUPPORT

TOPDON®

TOPDON constantly updates its database to include more vehicle models and new functions to offer users tools that are reliable, durable, and will not turn obsolete over time.

TOPDON also offers timely and high-quality technical support to assist customers using TOPDON tools. Our tech support agents are always ready to provide up-to-date and clear instructions and guide users through any technical issues.

EFFICIENT, FAST, ACCURATE AND MULTI-FUNCTIONAL

TOPDON[®]

TOPDON's T-Ninja Box can efficiently, quickly, and accurately read and write data. The tool offers a wide array of functions, including:

- Reading and writing the fourth generation of Volkswagen UDS engine chip.
- Volkswagen and Audi MQB platform vehicles' engine replacement.
- Instrument and steering column replacement (Unnecessary to access the original engine data. Instead, it can be read directly from the key).
- Fourth-generation Audi models' EZS, comfort control module, and KESSY chip replacement. (Available even if all keys are lost).
- Fifth-generation Audi gearbox replacement.
- Supports more than 170 Bosch, more than 20 Siemens engine ECU, 20 kinds of transmission ECU free shell BENCH mode copy.

CUTTING-EDGE ADVANCED FEATURES

TOPDON®

The T-Ninja Box supports a wide array of advanced features, allowing its users to access important functions, including Mercedes-Benz infrared key matching, lock reading and writing, three generations of engine gearbox computer brush empty, four generations of engine computer cloning, four generations of FDCT and 9-speed gearbox computer copy.

LIMITLESS CAPABILITIES

TOPDON®

This advanced programming device works on the most common IMMO systems, such as Engine, Automatic Transmission, Instrument, CAS, Body, and Lock Systems.

COMPATIBLE WITH THE TOPDON PHOENIX SERIES

The T-Ninja Box is compatible with the Phoenix Series of Scanners, the perfect add-on tool to further expand your diagnostic capabilities! This easy-to-use tool offers a simple and intuitive connection with no binding needed! It supports BMW engine replacement matching or copy, IMMO system replacement matching, key matching, transmission computer wiping empty and more.

WHAT'S IN THE BOX?

TOPDON[®]

- T-Ninja Box
- Main Cable
- XTA001
- mcu 1
- mcu 2
- EEPROM
- MB key
- INS Cable V1
- INS Cable V2
- MCU Cable V1
- Bench Mode Cable
- Matching Adapter A (5 Pcs)
- Matching Adapter B (6 Pcs)
- Matching Adapter C (7 Pcs)
- Matching Adapter D (8 Pcs)
- Matching Adapter E (6 Pcs)
- Switching Power Supply
- User Manual
- Packing List
- Carrying Case
- Packing Box
